

Project 3: Expanded 3D Cinema

Time to get physical!

Choose a topic/image that interacts with an object that you either find or make.

Create a short looping video/audio that can play over time. (1-2 min)

Present it in the for a 3D “festival.”

You can use projection or monitors or ipads etc

Prepare educational information to distribute about it.

(sources include Goodwill Store, Cricket or other antique stores, foamcore from bookstore, wood from Lowes, etc)

Tech Goals: Physical Presentation, writing about your work
